

K-LOVE provides me with uplifting music on a daily basis. I listen to 90.5 FM on my radio at work every day during the week. I am not able to listen to the station on the internet at work because of time usage restrictions. I am not able to tune in our local family-friendly station on my radio at work, but I can tune in to K-LOVE. I also listen to the station very frequently in my car. I am not sure that I would be able to receive the same type of family-friendly discussion and music that I get from K-LOVE if it were replaced by an LPFM. In our homes, workplaces, and communities we need radio stations that provide a positive influence. K-LOVE fulfills this need. Thank you.
